QUEENSCLIFF TRAFFIC & PARKING

Drop Off Zone

Drop off zone will be in operation from 6am – 8am on competition days. It is located along North Steyne directly north of Ceramic Lane. To access this zone, please head east along Ceramic Lane and turning left, as per image below.

Trailer Parking

Trailer Parking will be available on the beach front. Access is via 3 parking spaces opposite 110 North Steyne diagonally through the 2 sets of trees. Signage and crowd control barriers will be in place to direct vehicles. See images below for further details.

Oversized Trailer Access

Oversized trailer may be permitted access directly outside North Steyne and via the promenade by appointment only. This must not impact buses scheduled to stop and any vehicles using this access to drop their trailers must be accompanied by a spotter to ensure the safety of pedestrians. See image below and images on following pages for further details.

Recommended Pathways to and from parking areas

From Drop off Zone - Continue north along North Steyne, turn left onto Collingwood Street, right onto Iluka Ave, left onto Collingwood, turn right onto Pittwater Road and follow Pittwater road to the parking areas, as per the map below.

From Trailer Parking – Head south along North Steyne, turn right onto Pine Street, turn right onto Pittwater road and follow Pittwater road to the parking areas, as per the map below.

Approaching the parking areas – It is recommended to approach the parking areas from the south if accessing P2 – Keirle Park and from the north for all other parking areas. If you must approach from the opposite direction, you may use the turning areas as depicted below.

Pedestrian Access from Carparks

Pedestrians may use the public walkway through Lagoon Reserve running from Pittwater Road to North Steyne.

To access this walkway from the opposite side of the road, attendees will need to use the traffic lights at Eurobin Avenue to cross Pittwater Road.

To cross at North Steyne, temporary traffic lights or a traffic controller will be present at the Pedestrian crossing outside Queenscliff SLSC to assist with pedestrian and vehicular traffic control.

Keirle park will also have a dedicated pedestrian pathway to avoid pedestrians crossing to the other half of the area designated for use by Cricket NSW.

See maps on following page for more details.

Traffic Flow and Parking Spaces

Parking areas will be managed by Queenscliff SLSC in cooperation with ZipBy Traffic control plan will be provided to ensure maximum usage of the space as well as appropriate entry/exit pathways.

To streamline traffic flow into the parking areas, Keirle Park and Hinkler Park will have pre-registration.

For further details, please see the [2022 NSW Surf Life Saving Championships Parking Flyer](#) for further details on this process.

FRESHWATER PARKING

A drop off area may be designated for brief periods if required but this is unlikely to be necessary.

The backup parking field will be allocated as Event Parking free of charge. Additional paid parking is also available in the North and South Carparks. Parking can also be found on the streets surrounding surf club.

There will be a small amount of designated parking that will be reserved for officials, VIPs, work party and SLSNSW staff. Disabled parking will remain directly beside beach access on the south side of the club.

See map on following page.
