

Queenscliff SLSC COVID Vaccination Policy

The consensus by the members from our survey in January was the Club is to remain closed to unvaccinated unless they have medical documentation preventing them from being vaccinated.

Queenscliff SLSC Board of Management have agreed to 'vaccinated only' restrictions at the club until the Monday 17th March where the Board will conduct a review of this date. The closure of the club to non-vaccinated members includes all functions and training areas on Level 1 including the bar, the gym and downstairs showers and toilets. The external toilets, patrol shed and first aid room will remain open to all.

Regrettably, we understand that some members of our club will be disappointed by this decision.

COVID Safety

The NSW government has left this decision up to individual businesses. We want to keep our Club safe for members and employees. It is the Club's responsibility and duty to minimise risk in our environment. Under the Work Health and Safety Act 2022(NSW) and in general law, it is the Club's responsibility to make decisions that, to the best of our ability, maintain a safe environment for our volunteers, employees and for our club members. Many Members have commended the Club for working diligently to maintain a safe COVID environment over two years.

The following is required of all our patrons when entering the Club house:

- Proof of Double vaccination
- Covid Check in upon entry.

In addition to the above Queenscliff SLSC requirement NSW SLS have also introduced their policy that any member from 13 years old and above with a SLS Award must be double vaccinated to partake in any activities. For further information on the NSW SLS please refer to this link <https://www.surflifesaving.com.au/wp-content/uploads/sites/2/2022/01/SLSNSW-Member-COVID19-Vaccination-Policy.pdf>

We thank everyone for their cooperation and understanding.
